Professional Summary

Full Stack Developer with 3 years nearly of hands-on experience developing and maintaining web applications using React.js, Redux, Node.js, Express.js, and MongoDB, SQL. Experienced in building REST APIs, responsive user interfaces, and end-to-end business workflows for CRM, Sales and ERP systems. Skilled in API integration, authentication, database-driven features, real-time communication, and Python-based sales intelligence automation using locally hosted LLMs.

Work Experience

BiziQuick **Jan 2026 – Oct 2026**
Junior Software Developer *Hyderabad, Telangana*

- Developed and maintained CRM, Sales, ERP and Voice Agent application modules using React.js, Redux, Sass, Node.js, Express.js, and PostgreSQL.
- Built reusable React components and developed REST APIs to support end-to-end business workflows across sales and operations.
- Integrated frontend components with backend APIs to implement data-driven features and business process workflows.
- Improved application performance by implementing server-side pagination, indexing, React component rendering optimization, API response optimization, and debounced search with request cancellation.

GreyCat Digital **Jan 2024 – Dec 2025**
Junior Software Developer *Visakhapatnam, Andhra Pradesh*

- Developed responsive web application features using React.js, Redux, JavaScript, HTML5, and CSS3, integrating REST APIs.
- Implemented backend functionality and database integrations using Node.js, Express.js, and MongoDB to support application workflows.
- Contributed to a Sales Intelligence Pipeline that processes domain data from WhoisXML to identify and qualify potential business prospects.
- Automated website data extraction and prospect analysis using Python, web scraping, and locally hosted LLMs with Ollama and Qwen2.5 3B.

Projects

CRM Sales & ERP Platform | *Full Stack Web Application*

- Developed and maintained business modules covering CRM, quotations, sales orders, invoicing, item management, document templates, and Bill of Materials (BOM).
- Built responsive React.js interfaces and integrated REST APIs developed with Node.js, Express.js, and PostgreSQL.
- Implemented end-to-end workflows, form validation, search, filtering, and pagination across business management modules.
- **Tech Stack:** React.js, Redux, Node.js, Express.js, PostgreSQL, Sass, Material UI, REST APIs, Git.

Sales Intelligence Pipeline | *AI-Powered Sales Automation*

- Built an automated sales intelligence pipeline to process domain data sourced from WhoisXML for potential customer identification.
- Automated website data extraction and prospect analysis to identify companies matching target customer profiles.
- Integrated locally hosted LLMs using Ollama and Qwen2.5 3B for prospect classification and lead qualification.
- **Tech Stack:** Python, Web Scraping, Ollama, Qwen2.5 3B, WhoisXML, LLM-Based Classification

DevTinder Developer Matching Platform | *Full Stack Web Application*

- Developed a developer matching platform with authentication, profile management, and subscription-based access.
- Implemented REST APIs using Node.js, Express.js, and MongoDB, integrating real-time chat through Socket.io and payments through Razorpay.
- Implemented JWT authentication, cookie-based session handling, and password hashing using Bcrypt.
- **Tech Stack:** React.js, Redux, Node.js, Express.js, MongoDB, Tailwind CSS, Socket.io, Razorpay, JWT, Bcrypt.

Education

Nadimpalli Satyanarayana Raju Institute of Technology **2023**
B.Tech in Computer Science and Engineering

Technical Skills

- **Frontend:** HTML5, CSS3, SASS, JavaScript (ES6+), React.js, Redux, Axios, Bootstrap, Tailwind CSS, DaisyUI.
- **Backend:** Node.js, Express.js, Python, Nginx, Firebase, Socket.io
- **Databases:** MongoDB, Mongoose, SQL, SQLite
- **Tools & Platforms:** Git, GitHub, Linux, AWS, GCP, Vercel, Render, PM2, Postman, Jest, Claude Code, Ollama, Prompt Engineering
- **Core Concepts:** OOP, RESTful APIs, WebSockets, JWT Authentication, Responsive Design, Operating Systems
